

nanu

FIRST SLEEP BRAND

for kids & babies

Having grown in my heart and mind with years of silent contemplations, Nanu was finally launched by the beginning of 2015, with the purpose of providing "good sleep" to babies and kids. Although we had started off by designing and producing sleepwear and bed textile only, our portfolio had quickly expanded to include everything in a child's sleep room. Innovative sleep furniture, anti-allergic carpets, wall papers, curtains, lighting units, sleep toys, accessories, and even Kim West certified sleep coaching for moms are among Nanu's unique products and services offered at the two Nanu dream stores -open in Istanbul Gokturk, and Kanyon- today.

In the past couple of years, which is a very little time in a brand's life, we have worked a lot. We have worked with passion, along with mom's heart and mind. As a result, we are happy to have gained the appreciation of our customers, especially the little ones. We are grateful for your endorsement. However, we know that we must work harder to keep you happy and to stay worthy of your loyalty. Nanu will continue to grow by opening new dream stores in Turkey and abroad, and we look forward to being with you in the future as well and helping you provide good sleep to your loved ones for healthy growth.

With love and happiness,
Nazmiye Sabuncuoğlu Arslantürk
