DELTA has grown to be one of the highest capacity manufacturers, in furnishing field within Turkey, since its establishment in 1972.

In 35 000 m² under roof space purpose built factory, fully equipped with the latest CNC computerized system, operated by our trained and experienced technicians, we manufacture high quality operational office furniture and equipments for schools, hospitals ,hotels as well.

Our high capacity CNC systems, as well as our many years of experience enable us to supply furniture, exactly as it is required on the market, in required design, color, size and in the required amount, either partially or the complete furniture, wooden and / or metal.

We, focused on our principles of functionality, ergonomy, comfort and esthetics, aim to create office spaces with modern lines by giving our clients projecting service.
